DETAILED ACTION

Drawing Objections

1. Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.121(d)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

2. Claims 1-12 are allowed over the Prior Art of record.

3. The following is a statement of reasons for the indication of allowable subject matter:

The primary reasons for the allowance of claim 1 is the inclusion of the limitations of an apparatus for testing femoral head prosthesis having a sealed jacket having at least one deformable lateral wall portion and a socket fitted onto the jacket and provided with elastic fingers which extend substantially facing the deformable wall portion of the jacket. The closest reasonable Prior Art reference is US 6,176,140 B1 to Autenrieth et al. which discloses a testing apparatus for a femoral head prosthesis (see Fig. 3 below) having similar elements, however, not a sealed jacket, nor elastic fingers.

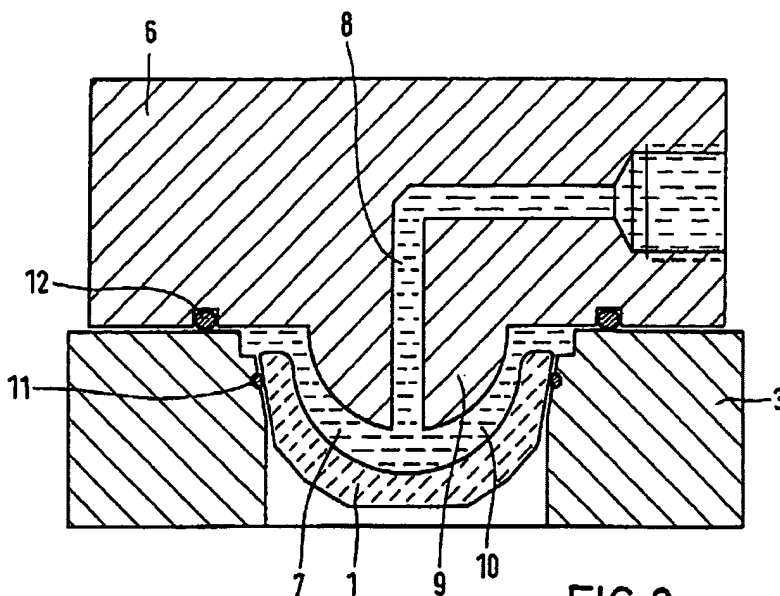

FIG. 2

Conclusion

4. This application is in condition for allowance except for the following formal matters:

Prior Art label missing from Figure 1.

Prosecution on the merits is closed in accordance with the practice under *Ex parte* Quayle, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Richter, Martin, Fetto and Ungethum all teach various testing aspects of prosthesis.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John Fitzgerald whose telephone number is (571) 272-2843.
